HELO HAVANNA

HELO HAVANNA

A BRAND NEW SAUNA TREAT, FINE-TUNED FOR YOU

The new Helo Havanna is an innovative heater designed for residential and apartment saunas. The Havanna heater range is suitable for sauna rooms measuring 3-13 m³. One of its unique features is the three-level rock grate, adjustable to fit 20, 28 or 35 kg of sauna stones. A smaller quantity of rocks heats rapidly and produces nice crisp steam; a larger mass will caress you with soft, well-rounded steam. With Havanna you don't merely acquire a stove, you get a steam treat tailored to your fancy.

Havanna has a built-in thermostat and a timer with 8 hours pre-heating time and 0-4 hours of running time. Both controls are clear, easy to use and easily accessible high up on the side panel. When installing, you can position the controls either on the right or left side without dismantling the heater.

The heater is wall mounted, for thrifty use of sauna room space, but can also be mounted to the floor with an optional floor stand. A handy dust collector installed beneath the heater is also a clever option to your Havanna stove.

Last but not least, Havanna is an eye-catcher. The stylish jet-black design, the carefully rounded corners and the steam wing on top add finesse and charm to its looks.

MODEL	POWER (kW)	SAUNA SIZE (m ³)	MINIMUM DISTANCES (mm) side / front / ceiling / floor
HELO HAVANNA 45 STS	4.5	3.0 - 6.0	40 / 80 / 1100 / 120
