

PCS Spa Elements Relaxation Loungers

Simple Installation

Heated surface options

Energy efficient

Tile ready surface

Standard and bespoke profiles

Product Overview

Designed with comfort in mind, PCS Heated Loungers are the perfect addition for poolside reclining, spa treatments or simply to relax on in your garden.

Our range of loungers is available with the option of factory fitted heating systems which can be integrated into existing site services.

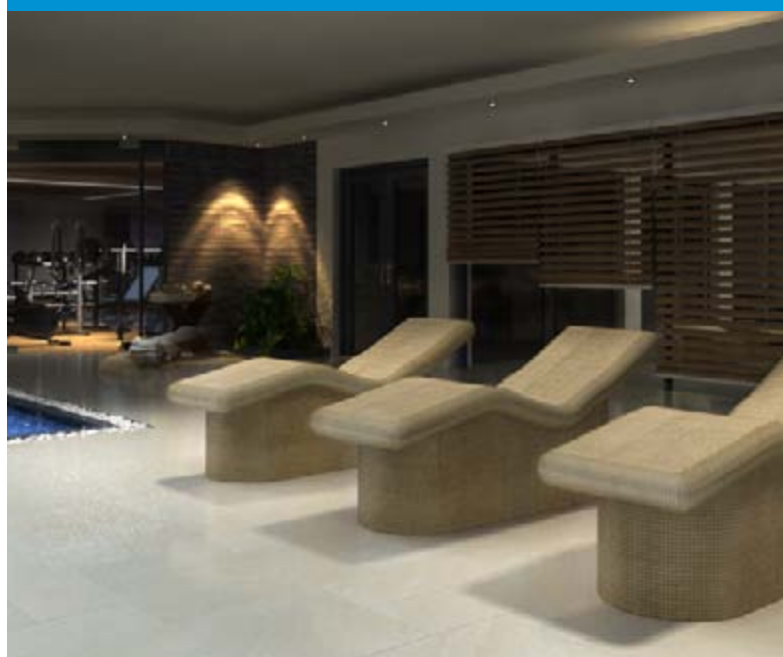

The units can be supplied either with an electric heating wiring loom and thermostatic controls, or can be fitted with barrier pipe for connection to an existing underfloor water heating system.

Applications

- Poolside
- Spa treatments
- Bespoke bathrooms
- Garden terraces

Relax and Unwind!

Stylish and comfortable, the PCS Relaxation Loungers are uncompromisingly indulgent. An endless choice of tiles compliment the loungers creating a unique, and undeniably beautiful result.

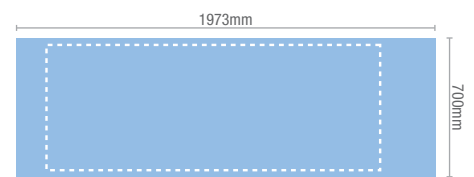

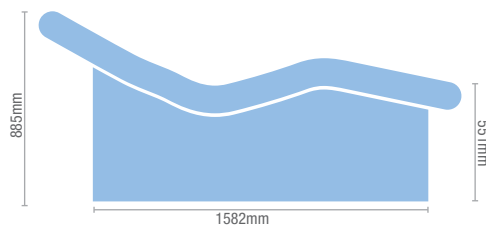

PCS Spa Elements Relaxation Loungers

Lounger Profiles

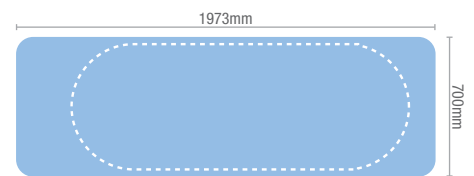

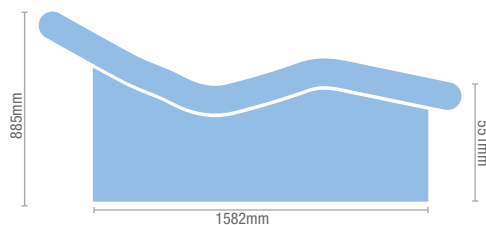

PCS Loungers are available with or without factory fitted heating systems. The Loungers can be supplied with an electric wiring loom or 10mm barrier pipe ready for connection to existing services.
