

HARVIA FORTE

Heater instructions

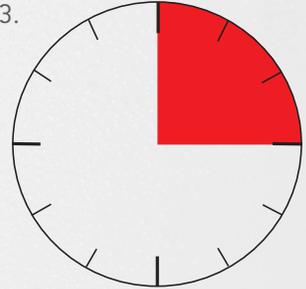

1.

2.

3.

Before bathing (LO-mode is ON):

1. Open the heater lid.
2. Press HI-mode button (A) and then press MENU button (B).
Adjust temperature with + and - buttons (C).
3. Wait for 5–15 minutes for the sauna room temperature to reach 50–60 °C degrees.

In the sauna:

- Throw a small amount of water (max. 2 dl) at a time on the stones.
- Relax and enjoy the warmth.
- If the sauna room temperature rises too high, select LO-mode.

After bathing:

- Select LO-mode (D).
- Make sure that the sauna stones are dry.
- Lastly, close the heater lid.
